Up to 87% said that they had not received advice from you or your staff on smoking, healthy eating and exercise.

Question 10
Mainly positive comments with a few suggestions

Question 11
A) 86% happy with storage
B) 45% asked for their consent
C) 92% felt their views were respected

Demographics Qu 12, 13 & 14
From the commercial point of view the survey indicates you have 73% female customers as opposed to 27% male, 57% are over 45 and 59% have neither children nor dependent relatives to care for

Recommendations
1. Keep doing what you are doing for most things! You and your staff are much appreciated. Well done.
2. The response to the question about private areas suggests that though you may have one either it is not well signposted or conversations can be overheard
3. It does show that they are a little unhappy about your waiting area and waiting times so you might like to look into improving these.
4. Providing healthy living advice Qu.7 is something that is not done well so it might be useful to think of ways that you and your staff could weave the health messages into general conversation with your customers and actually hand out lifestyle leaflets to customers.
5. Your demographics may suggest stocking less baby and children items, as 57% of your respondents are over 45 with only 16% having children under 5, but increasing your self indulgent ranges for the older person, with more disposable income because 59% have no dependents.
